

Lifeline Youth & Family Services

Presented by: Jennifer Sandman, Recruiting Specialist

Celebrating over 50 years
of changing lives and
making a *true* difference.

About Lifeline

Lifeline was created to be a beacon of hope to families who feel that they have nowhere else to turn.

Through in-home counseling, preventative education, and residential care, we give families the tools to be successful, meet their goals, and avoid future court intervention.

We are a faith-based organization, rooted in strong Christian values. We are committed to and we adhere to biblical teachings.

Home-Based Services

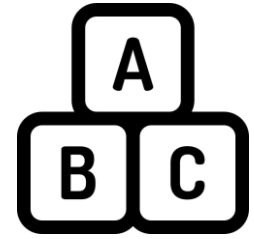

Home-Based Services provides support for families throughout Indiana with therapeutic needs such as anger management, coping skills, identifying substance abuse, and trauma. We also help teach conflict resolution, problem solving, domestic violence awareness, healthy boundaries, communication, linking to community services, and more.

Residential

Pierceton Woods Academy is residential facility for boys who have been removed from their homes and placed with Lifeline through state agencies.

Spencer Home provides safe, supervised environment to practice independent living skills, positioning them for future success.

Education

Project Incentive provides a free-of-charge preschool, parent outreach and home-based services to the residents of a low-income community in Fort Wayne.

Understanding the Need

The Indiana Department of Child Services received over **200,000** reports of child abuse and/or neglect in 2017.

That is an average of **547 calls per day** from caring adults who have the self efficacy to report.

Lifeline currently is unable to serve more than 30 cases each week due to limited staffing.

How do we impact a need that is so great?

26%

Of children will witness or experience a traumatic event before they turn four years-old.

76%

Of children who experience multiple events before the age of three go on to have developmental delays.

We are Difference Makers

Our programs work to restore emotional, mental and spiritual health, and then give families the tools they need to stay that way for the long-term.

It's not just the child or individual family member in crisis who needs support and care, it's the entire family. Our programs are built to support the individual, as well as the whole family. We believe that with family involvement, our chances of creating lasting change are exponentially greater.
